## **DETAILED ACTION**

### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The claims are patentable over the prior art of record, because the teachings of the references taken as a whole, do not show or render obvious the combination set forth in claim 1 the tension cable is guided around the two deflection rollers and wherein the ends of the tension cable are coupled to different sides of the first rolling carrier in such a manner that the end of the tension cable that is guided around the smaller deflection roller is attached to a side of the first rolling wheel carrier that face the second rolling carriage, and wherein the other end of the tension cable is guided around the larger deflection roller, wherein the other end of the tension cable is connected to a side of the first rolling wheel carrier that face opposite the first rolling carriage.
